## BadgePass NXT5000 Printer

#### **Enhanced Productivity**

NXT5000 is perfect for printing large runs because it personalizes color cards in record time: up to 225 cards per hour for single-sided printing and 140 cards per hour for dual-sided, allowing you to save time and increase productivity.

#### **Professional Printing**

NXT5000 printers feature 300 dpi photographic resolution and edge-to-edge printing for optimum print quality. Helping your cards convey a professional image of your organization.

#### Ideal for:

- Employee badges
- Access control badges
- Student IDs
- Healthcare cards
- Event passes
- Multi application cards

#### Ease of use

The card feeder and output tray are directly accessible on the front of the printer, so you can check the cards as they come out. The large capacity card feeder and output tray hold 100 cards so you don't have to refill the printer as often. NXT5000 offers high capacity printing in a compact footprint.

BadgePass ribbons are easy to install and automatically recognized by the printer.

#### Scalability

You can upgrade your printer according to your needs by adding magnetic stripe and contactless chip encoders. The printer can be factory configured for dual-sided printing, or the function can be activated on site.
